PROFILE SUMMARY

I am proficient in HTML, CSS, Bootstrap, and JavaScript. I'm currently self-learning React, diving into its ecosystem to enhance my skills in building dynamic and interactive web applications. I've created multiple projects using HTML, CSS, Bootstrap, and JavaScript, focusing on crafting responsive websites. Through these projects, I've honed my skills in frontend development and gained hands-on experience in building user-friendly interfaces.Intermediate level knowledge in Python and MySQL for basic web development tasks, contributing to backend functionality and database management.I am eager to contribute as a fresher to innovative projects and collaborative teams.

PROJECTS

My Portfolio: https://mjmugesh07-portfolio.netlify.app

My portfolio website is developed using HTML, CSS, JavaScript, and Bootstrap to ensure responsiveness across devices. It serves as a comprehensive showcase of my personal data and highlights all my projects. Each project is presented with live previews and a dedicated code page for transparency. Additionally, the website features a dedicated resume section, providing detailed information about my skills, experience, and achievements.

Blogger website: https://mjblogger.netlify.app

1. Designed and developed a responsive blogger website using HTML, CSS, and Bootstrap, ensuring seamless user experience across devices.
2. Implemented JavaScript for interactive features and integrated Swiper CDN to enhance carousel functionality for dynamic content display.
3. Showcased expertise in frontend development by incorporating modern design principles and utilizing third-party libraries for efficient code management.
4. Demonstrated adaptability and proficiency in integrating external resources to create visually appealing and user-friendly web experiences.
